

Khushi Dhiman

SOFTWARE DEVELOPER

Executive Profile

Detail-oriented MERN Stack Developer with hands-on experience building scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing RESTful APIs, responsive user interfaces, and efficient backend systems. Passionate about learning modern technologies, solving real-world problems, and contributing effectively to a growth-focused organization while continuously enhancing technical expertise collaboratively.

Fields of Interest

- Emerging treatments for malignant brain tumors
- Experimental drugs for glioblastoma multiforme
- Novel therapies for Parkinson's and Alzheimer's Disease

Contact Details

Email:
dhimankhushi@gmail.com

Phone:
(+91-9053692242)

Address:
V.P.O Sarsehri, Ambala Cantt,133001

Affiliations

- Lortan City Neurologic Society
- Pharmacologic Alliance
- National Board for Drug Safety and Tolerability
- Lortan Organization for Pharmacologic Research

Work Background

Associate Professor

Lortan University Hospital | May 2010 - present

- Designs curricula for neurology and pharmacology
- Delivers courses in neuropharmacology and evidence-based research
- Oversees Ph.D. candidates

Senior Pharmacologist

Lortan North Labs | June 2005 - April 2010

- Conducted trials on drug efficacy and safety
- Ensured compliance to Good Laboratory Practices
- Evaluated, hired and trained new personnel

Education & Training

Lortan University

Post-doctoral Fellowship in Neuropharmacology

- Completed in May 2005
- Conducted a landmark drug trial on the efficacy and safety of Maxlemutimol-X for the treatment of early Parkinson's Disease

East Lortan College

Masteral Degree in Research and Statistics

- Completed in April 2000
- Lortan City Scholarship Awardee
- Published a systematic review of conventional and emerging treatment options for glioblastoma multiforme

RICHARD SANCHEZ

MARKETING MANAGER

Ut enim ad minim veniam quis nostrud exercitation.

WORK EXPERIENCE

- Borcelle Studio** 2030 - PRESENT
Marketing Manager & Specialist
 - Develop and execute comprehensive marketing strategies and campaigns that align with the company's goals and objectives.
 - Lead, mentor, and manage a high-performing marketing team, fostering a collaborative and results-driven work environment.
 - Monitor brand consistency across marketing channels and materials.
- Fauget Studio** 2025 - 2029
Marketing Manager & Specialist
 - Create and manage the marketing budget, ensuring efficient allocation of resources and optimizing ROI.
 - Oversee market research to identify emerging trends, customer needs, and competitor strategies.
 - Monitor brand consistency across marketing channels and materials.
- Studio Shodwe** 2024 - 2025
Marketing Manager & Specialist
 - Develop and maintain strong relationships with partners, agencies, and vendors to support marketing initiatives.
 - Monitor and maintain brand consistency across all marketing channels and materials.

RAJ SINHA

TRAINER OF ATHLETES

A BIT ABOUT ME

I'm an athletic trainer who has worked with numerous athletes and sports teams to help them achieve peak physical performance and develop skills.

RELATED SKILLS

- Effective motivator
- Great client relationship management
- Specialises in strength and agility
- Able to customise training for individuals

GET IN TOUCH

Address: 123 Anywhere St., Any City, State,
Country 12345
Phone: 123-456-789
Email: hello@reallygreatsite.com
Website: www.reallygreatsite.com

CAREER HISTORY

HEAD TEAM TRAINER

Mahmoot Barriers | April 2020 - present

- Create specialised training regimen for every member of the team
- Adjusts training requirements based on players' performance and injuries

PHYSICAL TRAINER

Fabuilder Gym | March 2018 - March 2020

- Provided fitness plans to help gym clients with their workout goals
- Assisted gym clients with workouts through personal training and support

EDUCATION & TRAINING

SPORTS TRAINING SOCIETY

Personal Training Certificate, June 2017

- Professional development program for personal trainer's licensing
- Worked with accredited partners for real-life training experience and client building

VISHNU UNIVERSITY

BS Fitness Training, Graduated May 2017

- Graduated with honours
- GPA: 3.77
- Member of the Student Alliance for Fitness and Health
- Student Assistant, Vishnu University Fitness Center

»» SOFTWARE ENGINEER

PERSONAL SUMMARY

I am a software engineer who specialises in software programming and computer security. I'm proficient in a number of programming languages and systems.

ADDITIONAL SKILLS

- Proficient in 6 programming languages (Javascript, C/C++, Java, Python, Kotlin, Go)
- Fluent in Hindi, English, and Marathi
- Excellent communication skills

CONTACT INFO

Address: 123 Anywhere St., Any City, State, Country 12345

PERSONAL PREFERENCES

Arjun Singh
IT Director, University of Valley
Phone: 123-456-789

Pooja Shah
Supervisor, WEBsecurance Networks
Phone: 123-456-789

ADDITIONAL EXPERIENCES

Student Assistant

- Assisted students, faculty, and university staff with IT-related troubleshooting
- Helped IT Head restructure university web security system

Senior Year Intern

- Shadowed senior programmers to learn about creating security architectures
- Programmed various security software to test on local networks

ACADEMIC BACKGROUND

University of Valley

- Specialised in software engineering and security
- Recipient of the Student Academic Recognition Award
- Member of UofV Programming Society

VRT Technical Academy

- 3-month intensive program for computer science students
- Created online security system for final project
- Won Best in Programming award at student showcase

SUMMARY

Detail-oriented MERN Stack Developer with hands-on experience building scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing RESTful APIs, responsive user interfaces, and efficient backend systems. Passionate about learning modern technologies, solving real-world problems, and contributing effectively to a growth-focused organization while continuously enhancing technical expertise collaboratively.

EXPERIENCE

Full Stack Developer (03/2024 - Present)
E-karigar Technologies, Noida, Uttar Pradesh

Built and maintained multiple full-stack applications using Next.js, Node.js, Express.js, GraphQL, PostgreSQL, Redis, MongoDB, and MySQL.

Worked on company projects:

Cognitive Alliance Forumz (CAF)
EdTech Web Application | Next.js, MySQL, Tailwind CSS

- Developed and deployed a scalable EdTech platform using Next.js for server-side rendering and optimized performance.
- Designed and managed MySQL database schemas, queries, and data relationships for efficient data processing.
- Built responsive, cross-browser compatible UI using Tailwind CSS.
- Implemented RESTful APIs and integrated frontend with backend services.
- Optimized application performance, improving load speed and user experience.
- Followed clean code practices and modular architecture for maintainability and scalability.

PROJECTS

Blood Donation Management System
Tech Stack: Node.js, Express.js, MongoDB, EJS

- Developed a full-stack web app to manage blood donor registrations, blood group reports, and user authentication. Implemented role-based dashboards for regular users and donors.
- Created dynamic statistics and reports using MongoDB queries and server-side rendering with EJS.

Recipe Management System

Tech Stack: React.js, OpenWeatherMap API, CSS

- Built a responsive weather application using React that fetches real-time weather data from the OpenWeatherMap API.
- Users can search for any city and view current temperature, humidity, and weather conditions. Implemented error handling and dynamic UI updates for seamless user experience.

Weather App

Tech Stack: React.js, OpenWeatherMap API, CSS

- Built a responsive weather application using React that fetches real-time weather data from the OpenWeatherMap API.
- Users can search for any city and view current temperature, humidity, and weather conditions. Implemented error handling and dynamic UI updates for seamless user experience.

SKILLS

Programming : JavaScript, HTML, CSS, Python

Frameworks : React.js, Node.js, Express.js

Database : MongoDB

Tools : Git, Visual Studio Code, Postman

Other : REST APIs, EJS, Bootstrap

Shivamkaushal181@gmail.com

kaushalshivam.site

EXPERIENCE

Full Stack Developer – R&D Team
E-karigar Technologies, Ambala , Haryana
(05/2024 - Present)

Built and maintained multiple full-stack applications using Next.js, Node.js, Express.js, Angular, GraphQL, PostgreSQL, Redis, MongoDB, and MySQL.

Worked on company projects including:

Suffixcorp.com : Next.js + MongoDB website with optimized performance.

TheGlobe.nz : Listing & marketplace platform using Angular, GraphQL, PostgreSQL, Redis.

E-karigar Project Management Tool : Built using CodeIgniter, JavaScript & MySQL.

Cattle Insurance App: Fine-tune a custom resnet18 model to tell cows apart using their muzzle as fingerprint

MySQL powered AI Chatbot : Integrated LLM to interpret user questions and generate SQL queries for data insights.

Managed deployment pipelines using Docker, CI/CD, Nginx, and server optimization practices. Built AI agents and automation workflows using n8n, boosting internal productivity.

SKILLS

React.js, Next.js, Angular, JavaScript, Webflow, WordPress

Node.js, Express.js, Next.js, Laravel, CodeIgniter, REST APIs, GraphQL

MySQL, PostgreSQL, MongoDB, Redis

Docker, CI/CD pipelines, Nginx, Apache, PM2, Git, Linux server management

n8n, LLM integration, LLM development, Chatbot development

SUMMARY

Full-stack developer with 1.5+ years of experience in building scalable **web applications, automation tools, and backend systems**. Proficient in JavaScript, Node.js, React.js, Next.js, Angular, CodeIgniter, MySQL, PostgreSQL, MongoDB, Redis, Webflow, WordPress, and n8n. Experienced in Docker, CI/CD pipelines, server management, and Nginx, with hands-on expertise in integrating LLMs, building automation systems, and creating high-performance apps.

PROJECTS

Speech to text web app

Built a real-time video analysis tool using React.js, Node.js, and Express to detect smile percentage, filler words, and weak words, generating an improved spoken paragraph for better speech clarity.

Lead Scraper

Developed an automated scraper that fetches leads from Google Maps, cleans data, detects emails, and exports structured datasets.

WhatsApp Automation Chatbot

Self-hosted WhatsApp AI bot capable of full conversations with no third-party cost integrated with custom LLM API and Node.js backend.

EDUCATION

Bachelor of Vocational (Software Development)

Issued by E-karigar · Jul 2025

SAHIL THAKUR

SUMMARY

Backend & AI Engineer skilled in Python, Django, FastAPI, PostgreSQL, Redis, Docker, and Agentic AI. Experienced in building scalable APIs, automation systems, RAG applications, and AI-powered solutions. Strong focus on backend architecture, performance optimization, and production-ready software development.

SKILLS

Languages : Python, JavaScript, HTML, CSS

Backend Development : Django, FastAPI, Flask, REST APIs, Microservices

AI & Automation : LangChain, CrewAI, Agentic AI, RAG, LLM Integration, LLM Development, Chatbot Development, Prompt Engineering, n8n

Databases & DevOps : PostgreSQL, MySQL, Redis, Docker, Nginx, PM2, Git, Linux Server Management, Supervisor

Tools and Technologies : WordPress, Strapi CMS, Tailwind CSS, Bootstrap, NumPy, Pandas, Matplotlib, Cursor, Claude Code, Codex, Kiro, Ollama

EXPERIENCE

Crescaler, Ambala City, Haryana

Full Stack Developer – R&D Team

(8/2025 - Present)

Built and maintained web applications, AI-powered platforms, microservices, and automation solutions using **Next.js**, **FastAPI**, **WordPress**, **Strapi**, **Gemini AI**, and **n8n**.

Worked on company projects including:

Kailasham by Shivrattan: Headless e-commerce platform built using **Next.js**, **WordPress**, and **Razorpay** with authentication, cart, and payment integration.

Akash Infra: Managed production deployments, server configuration, SSL setup, and application releases on Ubuntu VPS servers.

Frenchyard: Developed a FastAPI-based **microservice** for document management with direct cloud storage integration.

CELPiP: AI Assessment Platform: Built an AI-powered system using **FastAPI** and **Gemini AI** for speaking and writing assessment through image and audio analysis.

Built AI agents, RAG chatbots, lead generation systems, content automation pipelines, and workflow monitoring solutions using n8n and Gemini AI.

Managed deployments, server optimization, monitoring, and release processes using Ubuntu, Nginx, PM2, and modern DevOps practices.

PROJECTS

AI Powered portfolio

Built a real-time video analysis tool using React.js, Node.js, and Express to detect smile percentage, filler words, and weak words, generating an improved spoken paragraph for better speech clarity.

ABOUT ME

Hello, I'm a college student pursuing Bachelor of Vocation in Software Development, driven by a passion for coding. I've already built five projects, ranging from a game store using HTML & CSS to quiz games in VB and Java, as well as WordPress websites for a gym and freelance work. These projects showcase my versatility and commitment to mastering various programming languages and platforms. With a thirst for learning and a dedication to innovation, I'm poised to make a meaningful impact in the ever-evolving field of software development.

SKILLS

- C
- Java
- HTML
- C++
- Wordpress
- CSS

ACHIEVEMENTS

- 1st Position in Web Weaving War
March 2024
- Participated in Python Bootcamp
August 2023

Ambala Cantt, 133005, Haryana | b2016130@gmail.com | +91-79880-41536

EXPERIENCE

Full Stack Developer - R&D Team
Crescaler LLP, Ambala City, Haryana
(06/2025 - Present)

Built and maintained multiple full-stack applications using React, WordPress, PostgreSQL, and MySQL.

Worked on company projects including:

adelaidecustomblinds.com.au : **Wordpress + Wpbakery** worked on website Frontend.

Castle Mobile App : Booking **Mobile Application** using React, Capacitor, Strapi Integration.

Point Of Sale : Built using React, Tailwind, Capacitor & MySQLi.

app.frenchyard.com : Updated API & admin pannel for vieweing student progress report used **CTE** for complex table logic, PostgreSQL, .NET.

wiseelecprotech.com.au : using **Elementor** redesigned the website.

Full Stack Developer Training-
Techden IT Institute, Ambala Cantt, Haryana
(04/2025 - 06/2025)

Completed 6 months of training at Techden IT Institute, learning HTML, CSS, JavaScript, jQuery, AJAX, and Bootstrap with practical experience.

CERTIFICATION

Training Certificate (October - April 2025)
Issued by Techden IT Institute ·
Jul 2025

Internship Cretificate (May - July)
Issued by The Lead Origin · July 2024

SUMMARY

Full Stack Developer with 1 year experience in React.js, PHP, Laravel, CodeIgniter, WordPress, and Shopify. Skilled in building responsive web applications, REST APIs, and database-driven solutions using MySQL and PostgreSQL. Proficient in JavaScript, Bootstrap, and modern development tools, with a strong passion for learning new technologies and delivering efficient solutions.

SKILLS

Programming : HTML, CSS, PHP, JavaScript

Frameworks : React.js, Laravel, Codeigniter, Wordpress, Shopify

Database : Postgress, MySQL, Strapi

Tools : Git, Visual Studio Code, Postman, Kiro, Antigravity, Cursor

Other : REST APIs, Bootstrap

PROJECTS

Kamban Board

Built a Kamban Board that provides user login Fuctionality and can create a todo list for others or for themselves and can drag and drop task widgets.

Snake Game

Developed a simple snake that stores the high score and get's bigger as you feed it. Created using HTML, CSS and javascript

EDUCATION

Bachelor of Vocational (Software Development)
